Description Additional Information

These 775/795 DC motors are high torque, high speed and are great for robotics, smart cars and many other applications.

Features:

- Rated voltage: DC12V -24V. (voltage can be used from 12 to 24V, 12000rpm at 24V)
- Widely used on car wash pump, sprayer and electric fan, vacuum cleaners, shredder machine, DIY toys, etc.
- Great replacement for the rusty or damaged DC geared speed reduce motor on the machine.
- Self-contained cooling fan can solve the problem of high temperature.

Specifications:

775 DC Motor-3000-6000RPM

- **Torque:** 0.43N.M
- **Unloaded Speed 12V:** 3000Rpm
- **Unloaded Speed 24V:** 6000Rpm
- **Rated Voltage:** Dc12V-24V (Interchangeable)
- **Unloaded Current:** 1.05A (Recommend Start Current 10A)
- **Shaft Diameter:** 5Mm
- **Front Shaft Length:** 16Mm
- **Body Diameter:** 42Mm
- **Motor Overall Length:** 97Mm For 775Motor; 101Mm For 795Motor
- **Mounting Aperture:** 29Mm (M4 Screw Hole)
- **Mounting Hole:** 2
- **Built-In Cooling Fan:** 1
- **Bearings:** Double Ball Bearings
- **Note:** Cannot Be Used Directly With 110V/220V Household Electricity!

775 DC Motor-6000-12000RPM

- **Torque:** 0.43N.M
- **Unloaded Speed 12V:** 6000Rpm
- **Unloaded Speed 24V:** 12000Rpm
- **Rated Voltage:** Dc12V-24V (Interchangeable)
- **Unloaded Current:** 1.05A (Recommend Start Current 10A)
- **Shaft Diameter:** 5Mm
- **Front Shaft Length:** 16Mm
- **Body Diameter:** 42Mm
- **Motor Overall Length:** 97Mm For 775Motor; 101Mm For 795Motor
- **Mounting Aperture:** 29Mm (M4 Screw Hole)
- **Mounting Hole:** 2
- **Built-In Cooling Fan:** 1
- **Bearings:** Double Ball Bearings
- **Note:** Cannot Be Used Directly With 110V/220V Household Electricity!

795 DC Motor-3000-6000RPM

- **Torque:** 0.63N.M
- **Unloaded Speed 12V:** 3000Rpm
- **Unloaded Speed 24V:** 6000Rpm
- **Rated Voltage:** Dc12V-24V (Interchangeable)
- **Unloaded Current:** 1.05A (Recommend Start Current 10A)
- **Shaft Diameter:** 5Mm
- **Front Shaft Length:** 16Mm
- **Body Diameter:** 42Mm
- **Motor Overall Length:** 97Mm For 775Motor; 101Mm For 795Motor
